THE ATELIER

The Atelier Gustavo Bittencourt is built upon three fundamental pillars: an appreciation for the quality of materials, the inherent value of handmade craftsmanship, and the timelessness of what is established. It delves into the diversity of materials, fittings, textures, and processes whose combination reflects its history.

“I believe that we all have a unique perspective on what we see; we all have our own way of looking at things. My furniture is my interpretation of forms, materials, and their interactions. It’s an expression of how I transform my inspirations and passions into what I believe.”

“I enjoy developing my furniture with uniqueness, creating a connection between people, fostering interactions. I envision timeless furniture that lasts beyond a lifetime, becoming not just furniture but intangible, irreplaceable assets; they end up becoming part of the family, of its history. When we craft with our hands, we imbue our feelings into the work, bestowing it with aura and making it unique.”
